METAL LOUVRE

# About Us

## Welcome to Architectural Ceiling Company

Metal is versatile, fluid and can be moulded into infinite possibilities. For us, Ceilings and Facades provide a canvas to every space - they don't just add personality & finesse but also create a safe heaven.

We understand Metal Ceilings and facades in every form and push boundaries to help bring an artist's vision to life.

We believe in creating bespoke Ceilings and Facades that are functional, backed by industry expertise and manufactured at a best-in-class facility.

## Our Expertise

Architects, Builders, Developers, & Designers persistently push boundaries to transform their ground-breaking ideas and renderings to life.

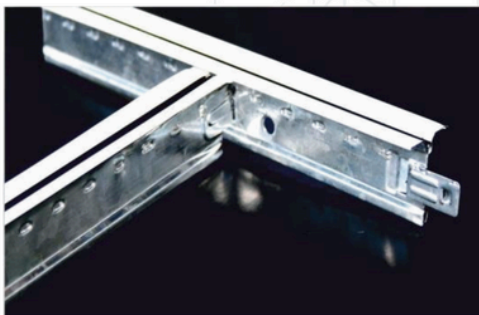

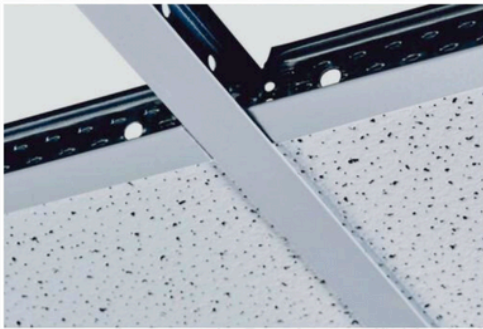

Architectural Ceiling Company steps in to fill in the blanks, bridging the void between customized design and traditional manufacturing, to nurture a new level of comprehensive caliber.

Customer satisfaction is our primary intent. With spick-and-span assured excellence, our methods keep your approved design within budget and on schedule. Our in-house creative team strive to arrive at solutions that fit the project requirements and provide systems and products with guaranteed long life and performance.

We hold every designer/architect's idea and concept with tangible intent. At the same time, our team ripens the most essential parameters by delivering options on modifying to achieve a detailed design aesthetic, the budget, standard acoustic rating and for project-specific conditions.

Most of our solutions are centered on speedy installations. Shorter Time Leads to Lower Overall Cost.

# SUSPENSION GRID 15MM / 24MM

## Material:

High-quality 0.5mm galvanized steel for the main runner (carrier) and suspension components. Perimeter trim offers a choice of galvanized steel or aluminum for design flexibility.

## Panels:

Galvanized Steel 0.5mm, Aluminium 0.65mm

This exposed lay-in system accommodates both 600mm x 600mm and 1200mm ceiling modules, suspended by adjustable 4mm hanger rods for a level finish. Pre-painted steel main tees (38mm/32mm height, 24mm/15mm width) offer design flexibility, while strong galvanized steel cross tees (26mm height) and pre-coated wall angles (24mm x 24mm or 15mm x 15mm) ensure a flawless look. User-friendly integral splices on the main tees simplify assembly, and the exposed flange features a classic white, pre-painted galvanized steel finish (0.30mm thick) for lasting beauty. Contact us today for a modern and functional ceiling solution.

## Carrier:

20mm wide x 45mm deep, stove enameled black for a sleek look.

## Paint Finish:

Durable 60-micron powder coating on exposed surfaces, 25-micron polyester coil coating with primer on visible surfaces.

## Suspension:

Spring steel big clip for height adjustment, 4mm diameter galvanized steel rod for support, panel and carrier couplers for secure connections.

# OUR VISION

“ Building With Excellence  
Serving With Integrity ”

# WHY METAL?

As a ceiling fabricator, we are often asked why we concentrate on metal as Ceiling & Louvre. The answer is simple

1. Steel & Aluminum are two of the most sustainable materials used in construction.
2. Metal is high quality material offering improved aesthetic through design flexibility
3. Highly durable and robust, metal maintains its appearances long after other materials need replacing
4. Long term, metal is far more cost effective than alternative materials
