METAL LOUVRE

About Us

Welcome to Architectural Ceiling Company

Metal is versatile, fluid and can be moulded into infinite possibilities. For us, Ceilings and Facades provide a canvas to every space - they don't just add personality & finesse but also create a safe heaven.

We understand Metal Ceilings and facades in every form and push boundaries to help bring an artist's vision to life.

We believe in creating bespoke Ceilings and Facades that are functional, backed by industry expertise and manufactured at a best-in-class facility.

Our Expertise

Architects, Builders, Developers, & Designers persistently push boundaries to transform their ground-breaking ideas and renderings to life.

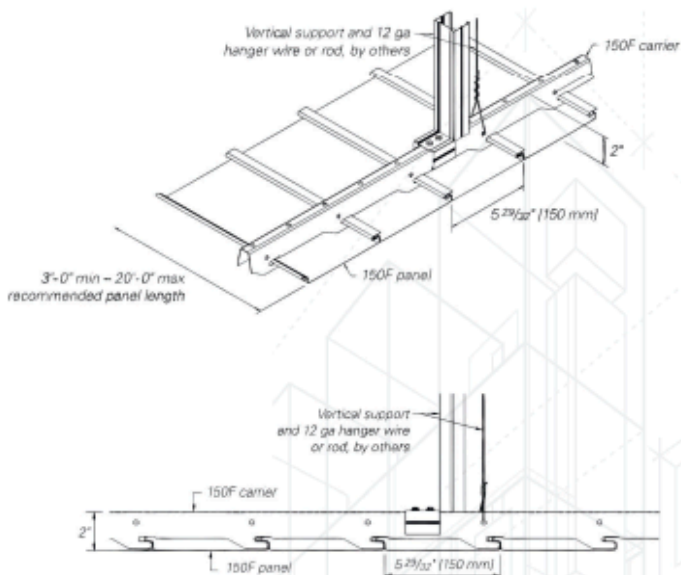

Architectural Ceiling Company steps in to fill in the blanks, bridging the void between customized design and traditional manufacturing, to nurture a new level of comprehensive caliber.

Customer satisfaction is our primary intent. With spick-and-span assured excellence, our methods keep your approved design within budget and on schedule. Our in-house creative team strive to arrive at solutions that fit the project requirements and provide systems and products with guaranteed long life and performance.

We hold every designer/architect's idea and concept with tangible intent. At the same time, our team ripens the most essential parameters by delivering options on modifying to achieve a detailed design aesthetic, the budget, standard acoustic rating and for project-specific conditions.

Most of our solutions are centered on speedy installations. Shorter Time Leads to Lower Overall Cost.

LINEAR 150F CEILING

Material:

Galvanized Steel 0.5mm, Aluminium 0.65mm

Panels:

150mm wide, 17mm deep, length up to 5mtr. with interlock flange to give flush look.

Our 150F Interlockable Ceiling/Cladding offers architects a premium solution for creating a sleek, high-performance closed ceiling or cladding system. Designed to withstand all weather conditions, it demands minimal maintenance and excels in exterior applications, maintaining its finish without cracking. The wide panels boast maximum length and blend aesthetics with essential qualities such as corrosion resistance, weather-load tolerance, washability, and airtightness. Ideal for both Wall Cladding and False Ceiling, this versatile system adapts seamlessly to various requirements from petrol pump canopies and toll plazas to industrial wall cladding.

Carrier:

34 mm wide, 48mm deep of 0.60mm thick Galvanized Steel stove enameled black to hold Panel in module of 150mm.

Paint Finish:

60 microns thick powder coating on exposed surface or 25 microns polyester coil coated over primer on visible surface with primer coat on rear side.

Suspension:

Tleveler, GS Suspension Angle, Panel Coupler, Carrier Coupler, GS /Aluminum Edge Profile for interior use.

OUR VISION

“ Building With Excellence
Serving With Integrity ”

WHY METAL?

As a ceiling fabricator, we are often asked why we concentrate on metal as Ceiling & Louvre. The answer is simple

1. Steel & Aluminum are two of the most sustainable materials used in construction.
2. Metal is high quality material offering improved aesthetic through design flexibility
3. Highly durable and robust, metal maintains its appearances long after other materials need replacing
4. Long term, metal is far more cost effective than alternative materials
