METAL LOUVRE

About Us

Welcome to Architectural Ceiling Company

Metal is versatile, fluid and can be moulded into infinite possibilities. For us, Ceilings and Facades provide a canvas to every space - they don't just add personality & finesse but also create a safe heaven.

We understand Metal Ceilings and facades in every form and push boundaries to help bring an artist's vision to life.

We believe in creating bespoke Ceilings and Facades that are functional, backed by industry expertise and manufactured at a best-in-class facility.

Our Expertise

Architects, Builders, Developers, & Designers persistently push boundaries to transform their ground-breaking ideas and renderings to life.

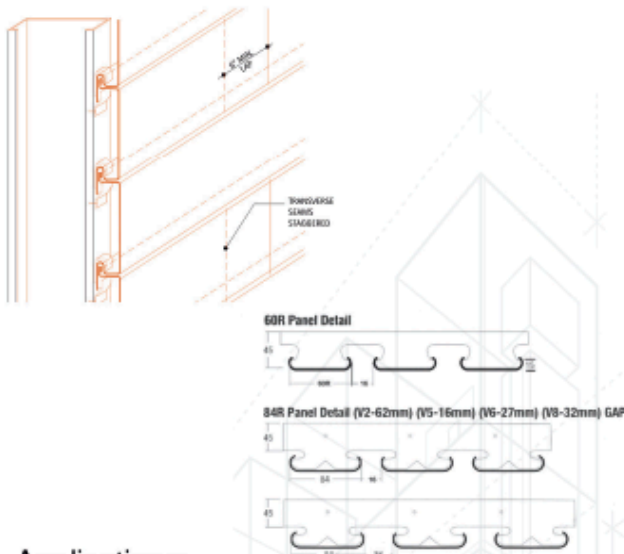

Architectural Ceiling Company steps in to fill in the blanks, bridging the void between customized design and traditional manufacturing, to nurture a new level of comprehensive caliber.

Customer satisfaction is our primary intent. With spick-and-span assured excellence, our methods keep your approved design within budget and on schedule. Our in-house creative team strive to arrive at solutions that fit the project requirements and provide systems and products with guaranteed long life and performance.

We hold every designer/architect's idea and concept with tangible intent. At the same time, our team ripens the most essential parameters by delivering options on modifying to achieve a detailed design aesthetic, the budget, standard acoustic rating and for project-specific conditions.

Most of our solutions are centered on speedy installations. Shorter Time Leads to Lower Overall Cost.

LINEAR PANEL 38R / 60R

Applications:

To cover ducts Of residential & commercial projects.

Material:

Durable 0.50mm galvanized steel, corrosion-resistant 0.55mm Alu Zinc, or lightweight 0.65mm aluminum with a TCT (Thermal Control Treatment) finish.

Panels:

38mm or 60mm wide, 15mm deep, with lengths up to 3 meters

Linear 38R/60R Cladding offers a captivating visual experience with its elegant, flowing lines. The system prioritizes both aesthetics and functionality. Panels can be effortlessly removed and replaced by hand, ensuring easy and complete access to essential services within the building. This innovative design delivers a simple yet undeniably pleasing effect. Linear Exterior Cladding provides remarkable versatility. The panels can be installed horizontally or vertically, seamlessly integrating with the Multi Space Cladding System for a cohesive look.

Carrier:

20mm wide and 40mm deep, crafted from 0.60mm thick black coil coated galvanized steel. Securely holds panels in gap modules of 16mm, 25mm, or 30mm. Customization for different gap sizes is also available.

Paint Finish:

Exterior Hypercote powder coating ensures corrosion resistance, backed by a 10-year warranty for exterior applications. Choose from single-sided (visible surface only) or double-sided powder coating for optimal protection.

Installation:

The system utilizes L-shaped clips, aluminum sections, or MS pipes for a secure and efficient installation. Corrosion and weather-resistant screws and other necessary components are also available.

OUR VISION

“ Building With Excellence
Serving With Integrity ”

WHY METAL?

As a ceiling fabricator, we are often asked why we concentrate on metal as Ceiling & Louvre. The answer is simple

1. Steel & Aluminum are two of the most sustainable materials used in construction.
2. Metal is high quality material offering improved aesthetic through design flexibility
3. Highly durable and robust, metal maintains its appearances long after other materials need replacing
4. Long term, metal is far more cost effective than alternative materials
